REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Regarding claims 15-21, none of the references of record discloses or suggests, alone or in combination, a power supply device for electric discharge machining comprising: a switching circuit that supplies a discharge pulse current to an inter-electrode portion between an electrode and a workpiece, a pulse width control unit that generates a control pulse signal of a predetermined pulse width in response to a detection signal for starting a discharge, wherein the switching unit comprises a first switching circuit comprising a first switching element suitable for high speed operation; a second switching circuit comprising a second switching element suitable for low-speed operation that performs the switching operation with an overlapping period after operation start of the first switching circuit according to a second drive pulse signal generated in response to the control pulse signal, and wherein the first switching circuit and the second switching circuit receive the control pulse signal in parallel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
